To whom it may concern,

Re: Viva Polycarbonate Glassware

I am the Managing Director of an Event Management Company that is involved in large Event Management functions.

Many of these events require the hiring or purchasing of glassware to be used for the serving of beverage.

It was recommended to me that I start to make use of the polycarbonate glassware in lieu of natural glassware owing to the high level of breakage that may occur at events. I have found that this recommendation has exceeded all my expectations.

There have been no complaints or adverse comments by the use of the polycarbonate product over glassware. It looks good, is sturdy and can be reused over multiple occasions.

I would have no hesitation in recommending the use of this product as supplied by Brackley Industries.

Yours Sincerely,

Benita Kam
BNT Management
