To Whom It May Concern,

Re: VIVA Glassware

We decided to team up with VIVA Glassware to offer our customers in the hospitality industry a complete polycarbonate glassware and cleaning solution.

Just like VIVA Glassware is a quality product and brand, Enviro Chemicals offers quality products that are environmentally friendly, making us a great match and ideal partners.

From time to time we ourselves are required to supply our customers with polycarbonate drinkware and VIVA Glassware is unquestionably our preferred supplier.

We wholeheartedly recommend VIVA Glassware to our existing and prospective customers who are looking for a premium polycarbonate solution.

Yours Sincerely,

Emin Safak

Sales Manager
