To whom it May Concern

The Island Sydney changed to Viva Unbreakable Polycarbonate Drinkware for the summer 2011 season.

*We found the company to be efficient and responsive and the product is awesome. It is important to us to serve beverages in drinkware that matches the premium venue and we can do this with Viva Drinkware that looks just like glass but **is** so durable and maintain that brand new look longer.*

Not only have we saved thousands by eliminating the cost of replacement glasses, we have the peace of mind that we have created a safer venue for our staff and patrons which is of paramount importance to us.”
